

Martin Sanitary Diversion Drainage District NOTICE OF PROJECT PLAN PUBLIC HEARING

The Macomb County Public Works Office on behalf of the Intra-County Drainage Board for the Martin Sanitary Diversion Drainage District will hold a public hearing for the purpose of receiving public comments and input regarding the proposed State Revolving Fund Project Plan for the Martin Sanitary Diversion Drainage District. The public hearing will be held virtually at 6:30 p.m., April 26, 2021. If interested in attending the public hearing, please contact MCPWOprojectinfo@macombgov.org for meeting access information.

The Plan focuses on increasing storage in the sewer system during wet weather events in order to reduce the volume and frequency of treated combined sewer overflows into Lake St. Clair thru the construction of the Martin Drain In-System Storage Devices.

The estimated project cost for the project is \$5,873,400. The Drainage District is requesting an SRF loan for the construction costs only which are estimated at \$4,256,000. There are no estimated cost increases anticipated with the SRF loan to either the City of Saint Clair Shores or the City of Roseville.

All interested parties are invited to present comments on the proposed Project Plan. Written comments may be submitted to the Macomb County Public Works Office, Attn. Vince Astorino, 21777 Dunham Road, Clinton Township, MI 48036 or emailed to vincent.astorino@macombgov.org. Written comments may be received no later than May 7, 2021, for them to be considered as part of the public record.

Starting on March 22, 2021, copies of the draft Project Plan will be available for public review on the Macomb County Public Office Website at <https://publicworks.macombgov.org/Publicworks-Home>
